

South Carolina's Employment Situation - July 2010

Released: August 20, 2010

S.C. Unemployment Rate Increases to 10.8%

The South Carolina Department of Employment and Workforce, in partnership with the Bureau of Labor Statistics, reported today that South Carolina's seasonally adjusted unemployment rate increased to 10.8% in July. This is an increase of 0.1 of a percentage point from 10.7% recorded in June, and 1.2 percentage points below the July 2009 rate. Over the month, the number of employed persons decreased 6,918 (-0.4%), and the number of unemployed increased by 56 (0.02%). This resulted in a decrease in the labor force (employed + unemployed) of 6,862 to 2,143,387. This is the first unemployment rate increase this calendar year and the fifth consecutive month the labor force has decreased.

Nationally, June's unemployment rate remained the same at 9.5%. The national civilian labor force also declined in July (-181,000), with decreases in both employment (-159,000) and unemployment (-24,000).

The monthly establishment survey in South Carolina showed a decrease of 32,300 nonagricultural jobs in July. The Government sector (-39,200) accounted for most of the decrease as state and local schools released additional staff for the summer, reflecting a normal seasonal pattern. Reduction in temporary census workers also affected the Government sector (-2,000). The private sector partially offset the Government losses with a gain of 6,900 jobs in July. Manufacturing added 1,900 jobs. Other private sector gains were recorded in Professional and Business Services (+5,200), Leisure and Hospitality (+1,500), and Wholesale Trade (+300). Losses in the private sector occurred in Education and Health Services (-1,200), and Retail Trade (-1,300), and Construction (-300). The overall job count was 18,200 above the year-ago level.

"Several sectors of the economy such as Retail Trade and Construction are moving in a lateral motion. This continues to affect consumer sentiment which directly affects demand for products and services. As the state's economy strives to rebound, we remain committed to assisting job seekers in finding employment," said John L. Finan, Executive Director of the Department of Employment and Workforce."

S. C. Department of Employment and Workforce John L. Finan, Executive Director
